**Effective Project Management Through Applied Cost and Schedule Control (Cost Engineering)** James Bent, Kenneth K. Humphreys

This work outlines a state-of-the-art project control and trending programme, focusing on advanced applied-cost and schedule-control skills for all phases of a project at both owner and contractor level. It contains information on the three major aspects of the total project programme: the techniques and procedures utilized for a project; the experience and analytical ability of project personnel; and the commitment and teamwork of a project group.
