After being kidnapped by a killer and nearly killed herself, Isabelle Hardy knew better than to get mixed up in another murder investigation. Police officers and detectives were trained to sift through information and ferret out the truth. They didn't want or need her help. While helping out her Uncle Max at the flea market, Isabelle stumbles over another dead body. She knew she needed to stay as far away from the investigation as possible, but the evidence against her brother starts piling up, and then Uncle Max disappeared. The victim's house was broken into and his computer files were wiped clean. Was the evidence needed to bring a killer to justice hidden in the files? Izzy had to find Uncle Max and the backup files before the police or the killer did, ending the game once and for all.
