Monsters And Criminals From The Last 250 Years: Sickly Serial Killers From The Past How are serial killers made? Perhaps, if someone could answer this question, then the police and the community would be able to prevent people from killing in the first place. As it is, this question remains unanswered though many different hypothesis are put forward by the experts. Until a method for preventing crimes before they are committed is developed then all the authorities can do is be reactive in the case of serial killers. This is of course exactly what plays into the hands of those who commit such heinous crimes. Being a concerned citizen though is certainly a weapon that we can all employ in the fight against serial killers. In this book, you will discover 7 killers who stopped at nothing to feel invincible. From those that had problems in their childhood to those that had a loving parent. Those that had a certain incident that set them off to those that just did it to see if they could get away with it – not all serial killers can be pigeon holed unfortunately for law enforcement officials...
