This book is a free e-book dice roller. I have pasted one of my free RPG game systems in the file so you get the whole 20 photos of the dice roller for free.

With the specially chosen photos of all 6 polyhedral dice types (d4,d6,d8,d10,d12,and d20) you can randomly generate any number you could with the actual dice including results from 1 to 100 with 2d10. Each die in each photo was specially chosen and selected to achieve as balanced a probability swing as it is possible with only 20 photos. You will still need 1d6 or a fair GM to scroll through the pictures randomly and gain a truly random die roll result.

To use this random number generator simply roll a six-sided die and scroll that many pages forwards or backwards. Use the result of the die you needed to roll shown in the picture. Randomly hitting the backward and forward page buttons also works well.

Now you can play your free RPG e-books for even less directly on your e-reader. I still recommend an actual d20 for best performance.
