As a scholar, I exactly feel bored to reading. If their teacher requested them to go to the library or even make a summary for some review, they are complained. Just minor students that have reading's spirit or real their leisure activity. They just do what the educator wants, like asked to the library. They go to the library but nothing reading seriously. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country.
