Since its founding in 1950, the Metaphysical Society of America has remained a pluralistic community dedicated to rigorous philosophical inquiry into the most basic metaphysical questions. At each year's conference, the presidential address offers original insights into metaphysical questions. Both the insights and the questions are as perennial as they are relevant to contemporary philosophers. This volume collects eighteen of the finest representatives from those presidential addresses, including contributions from George Allan, Richard Bernstein, Norris Clarke, Vincent Colapietro, Frederick Ferré, Jorge J. E. Gracia, Joseph Grange, Marjorie Grene, George Klubertanz, Ivor Leclerc, Ralph McInerny, Ernan McMullin, Joseph Owens, John Herman Randall, Jr., Nicholas Rescher, Stanley Rosen, John E. Smith, and Robert Sokolowski. Also included are Paul Weiss's inaugural address to the Society, an introduction chronicling the history of the Society, and an original Foreword by William Desmond and Epilogue by Robert Neville.
