Mitochondria and Cell Death (Cell Death in Biology and Diseases)

Mitochondria and Cell Death (Cell Death in Biology and Diseases)

This volume examines the role of mitochondria in different types of cell death, including apoptotic and necrotic cell deaths. Topics discussed include mitochondrial outer membrane permeabilization (MOMP) and the permeability transition pore; core processes such as calcium handling, fission and fusion, reactive oxygen species generation, and maintenance of mitochondrial DNA fidelity and protein folding homeostasis; and retrograde signaling between mitochondria and other cellular components, including the important role of mitochondria in antiviral immunity. The expertly authored chapters are drawn from multidisciplinary international perspectives, lending a nuanced and comprehensive approach to the material.

Mitochondria and Cell Death, part of the *Cell Death in Biology and Diseases* series, is invaluable reading for graduate students, researchers, and clinicians in the fields of neuroscience, oncology, gastroenterology, and hepatology, as well as those interested in the study of mitochondria and cell biology.

From reader reviews:

Lisa Morgan:

The book Mitochondria and Cell Death (Cell Death in Biology and Diseases) can give more knowledge and information about everything you want. Why must we leave the best thing like a book Mitochondria and Cell Death (Cell Death in Biology and Diseases)? Some of you have a different opinion about e-book. But one aim this book can give many information for us. It is absolutely right. Right now, try to closer using your book. Knowledge or details that you take for that, you are able to give for each other; you may share all of these. Book Mitochondria and Cell Death (Cell Death in Biology and Diseases) has simple shape nevertheless, you know: it has great and large function for you. You can search the enormous world by wide open and read a publication. So it is very wonderful.

Russell Carson:

Your reading sixth sense will not betray an individual, why because this Mitochondria and Cell Death (Cell Death in Biology and Diseases) guide written by well-known writer we are excited for well how to make book that can be understand by anyone who else read the book. Written throughout good manner for you, dripping every ideas and producing skill only for eliminate your hunger then you still question Mitochondria and Cell Death (Cell Death in Biology and Diseases) as good book not merely by the cover but also by the content. This is one publication that can break don't ascertain book by its include, so do you still needing one more sixth sense to pick this particular!/? Oh come on your reading sixth sense already said so why you have to listening to yet another sixth sense.

Travis McDonald:

Are you kind of occupied person, only have 10 or maybe 15 minute in your morning to upgrading your mind expertise or thinking skill even analytical thinking? Then you are receiving problem with the book in comparison with can satisfy your short period of time to read it because all of this time you only find guide that need more time to be examine. Mitochondria and Cell Death (Cell Death in Biology and Diseases) can be your answer because it can be read by you actually who have those short time problems.

Jorge Eaton:

The book untitled Mitochondria and Cell Death (Cell Death in Biology and Diseases) contain a lot of information on it. The writer explains the girl idea with easy method. The language is very simple to implement all the people, so do definitely not worry, you can easy to read that. The book was written by famous author. The author brings you in the new era of literary works. You can easily read this book because you can continue reading your smart phone, or program, so you can read the book inside anywhere and anytime. If you want to buy the e-book, you can start their official web-site as well as order it. Have a nice read.
