Israel, surrounded on all sides by nations hell-bent on taking its land and slaughtering its people, has been isolated and alone in the community of nations for decades, with one crucial exception. That exception has been the United States, a country on which it has relied for its survival throughout its 60-year history. Every would-be aggressor has understood that the world's most powerful nation was behind Israel and would not let her be destroyed, and every vote of condemnation of Israel in the UN would undoubtedly be met by a veto from the United States, until now. The Obama administration has signaled a noticeable shift in U.S. policy towards Israel, from Obama's apology to the Arab and Muslim world for alleged American misdeeds to Obama's most recent speech calling for a return to the 1967 lines. *Obama and the War Against the Jews* examines the origins and repercussions of this dramatic policy change of a nation from the world's bulmark of democracy and freedom to an enabler of the very forces that are intent on destroying them.
