New York is located on the 40th degree of latitude, the same as Rome. The warm sunlight, beloved by painters, only for short moments illuminates the skyscrapers and creates spectacular shadow plays on the architecture. And when the sun goes down, the street lights change the city into a magic place again. I want to capture these fascinating moments in my pictures. So has arisen a set of very graphical black and white photos. Calvendo calendars are premium products - a bit more pricey than others but with added benefits: Our calendars always look beautiful on your wall because we produce them locally with premium paper and sophisticated spiral binding, ensuring easy turning of pages and flat hanging against the wall. A protective transparent plastic cover sheet provides added stability and each calendar comes in five languages. Treat yourself to a Calvendo calendar and you get something that looks better all year round.
