Exadata Certification Guide for 1Z0-027 Aaron Soule

Finally a breakthrough has been made in studying for the Exadata X3 Administrator exam (1Z0-027)! Oracle has kept this material under lock and key, and you have probably been scouring the internet trying to get your foot in the door. This is the kit that I personally built and used to pass the exam the first time. The raw product documentation is highly rich in useless sales figures designed to intimidate you, but I use my Oracle Certified Master's acumen to cut through the redundancy and give you the best bang for your expensive time.

The cost of this kit is less than just one of your billable hours, and this will save you hundreds of hours and raise your billing rate. Don't get me wrong. You have to do the work to complete this certification, but the road is much shorter for you than it was for me. Imagine being at the helm of the most advanced database in the world that sells for no less than \$200K, and imagine how much of that might be yours.

The study guide consists of 500 short answer questions, with the question and answer separated into different sections of the document. I put in countless hours vetting the content because I'm developing my own skills along with yours. This is what I would use if I could retake the test again today. Everything is hyperlinked together to allow for seamless grilling of your knowledge. All questions are mapped to the official exam objectives. You pass the exam and learn how to perform the job too. Get on the ground floor of the "cloud" and "big data" revolution!
