What Did You Do in the Cold War, Dad? Kevin Trainor

You're in the Cold War Army now as Kevin Trainor's memoir returns you to a time of clashing superpowers and nuclear tensions. As a Russian linguist for the Army Security Agency, Trainor was an increasingly square peg in a series of round holes. Nonetheless, his misadventures will leave you chuckling. His insights into military history and some of its most important figures will have you nodding your head in agreement.

Light-hearted, yet serious, Trainor's recollections stretch from the Cold War through the first Gulf War. This collection of creative nonfiction fills in some of the gaps in the author's previous work. More removed from the world of gaming conventions and blogging, this book transports you to the realm of military intel with its annoying internal politics, frequent travel demands, and—in the Reserves—a constant disruption of any reasonable work-life balance.

Wild, fun, and informative, this eBook of approximately a hundred pages will make a pleasant evening's read with a glass of wine or a good cup of coffee.
