## **August Strindberg: Selected Essays** August Strindberg

This is the first fully edited translation of a series of essays by the great Swedish dramatist August Strindberg. The essays, edited and translated by Michael Robinson, have been selected for the light they shed, both directly and indirectly, on Strindberg's contribution to the European theater, first in such masterpieces of psychological realism as *The Father* and *Miss Julie*, and subsequently in those works, including *A Dream Play* and *The Ghost Sonata*, with which he largely established a basis for theatrical modernism.
