This book proves that black men ruled the world in ancient times. The planet earth was a world of all black people from 66 trillion B.C. to 4,000 B.C. The white race came into being at about 4,000 B.C. Pre-history is a word invented by white historians to describe the world before the white race came on the planet earth. Ancient societies such as Egypt, Greece, Rome, Babylon, Persia, Carthage and others were all black societies, and later such societies became mulatto and all white. China and India were once all black societies in ancient times. Black people were on American soil when Africa and America divided 40,000 B.C. During 10,000 B.C., black men were traveling in space. This book reveals the mask of a black space traveler which was found in Canada in 1879. The black Egyptians carved unique designs on their walls of pre-historic airplanes and space-ships. Black African Moors founded the American government in 1312 A.D., and the African Moors originated 40 tribes of over a million African Indians, and ruled America from 1312 A.D. to 1774 A.D. Whites(Europeans) took over the black government by racial domination in 1776. The black African Moors had a brilliant government in Spain from 711 A.D. to 1492 A.D., and the black African Moors transferred their government from Spain to America in 1312 A.D. After 1492 the Spanish overthrew the Moorish government of Spain then came to America to overthrow the Moorish government of America, after the voyages of Columbus. The artifacts and sculptures of black people's true world history is kept secret in the European and American museums around the world. The author is revealing such information rarely seen by the public because of European and American racism. This book contains 10 pages of photographs and artifacts proving the author's assertions, and this book has 158 pages of documentation that gives additional proof about all the above information.
