Chemical Pollution and Waste Management

Chemical Pollution and Waste Management

Chemical pollution is the result of hazardous industrial chemicals which are not properly disposed and treated. Some industrial chemicals are highly poisonous as they contaminate not only air, water and soil but food chains as well. This book is a valuable compilation of topics, ranging from the basic to the most complex advancements in the field of chemical waste management. Different approaches, evaluations, methodologies as well as advanced studies on controlling the adverse effects of chemicals and management practices to reduce the hazardous impacts have been included in the book. This text is a vital tool for all researching and studying this field.
