Action is the foundational key to all success.

The key to adopting productivity is to focus on what is important in your life - not the 'stuff', but the 'real' things that bring fulfillment and happiness to your life.

Once we honestly assess and focus upon what is really important to us, **then we can begin to eliminate the clutter and stress in our lives.**

This book will help you determine what productivity means to you and how to seamlessly integrate your concept of productivity or simplifying into your everyday life. We do not intend to coach you into being something you are not.

I'm sure you have all experienced the "lose weight without diet or exercise" or "make money overnight and quit your day job". Perhaps, you have even picked up a magazine or another book on simplifying and organizing that has promised you that you can rid yourself of clutter in a weekend. While those headlines are intriguing, we either don't follow through on the instructions or **we fall back to our old habits within a week.**

Your self-assessment is the key in determining what level of productivity and simplicity you want and need in your life.

So, simplicity, organization, productivity or whatever you choose to call it, is a step toward eliminating clutter, reducing stress and saving money.
