**AND NOW, THE FUN STUFF (SYNOPSIS):**

**2287 A.D.** is the 1st novel of an epic series about post-apocalyptic survival, time travel, love, sacrifice and redemption amid the ultimate battle for mankind's survival.

-  
It follows the lives of Ashlyn Parker and Steven Sherrah, the man who is in command of Earth's last surviving starship. He has been struggling to keep the handful of Earth's survivors alive, hiding from the most vicious and powerful enemy humanity has ever known, an enemy that is relentless in his determination to see that every last human is killed.

-  
His life is turned upside down as Ashlyn, a woman genetically engineered to be mentally and physically perfect - the next step in humanity's evolution, awakens from stasis. For her protection, she had been cryogenically frozen when Earth was attacked. Her return is brutal, for she awakens fifteen years later into a post-apocalyptic Earth to find that everyone she had known before is gone, the world destroyed.

-  
From the first moment that her distress signal is received and Steven rescues Ashlyn, his heart is inexplicably

drawn to her, as she is to him. Her presence challenges his loyalty to those whom he loves and all that he has ever known. For within Ashlyn, she holds the secret to a shared past that he had never known existed. A past which will take them back in time almost 7,000 years, where they will journey through strange new worlds, changing the history of the universe for all time, and our understanding of everything as we know it.

\*

2287 A.D. is packed full of action and adventure. Personally, we hate a 3 page description of how a star-drive engine operates. We hope that you too will enjoy a story that moves quickly.
