Snow leopard, Bennett Nelson takes work for his Clan council regularly as payment for occupying a section of their territory. Though he prefers working solo, his next assignment places in him in close quarters with one of the Psi. Isolated with her on a mountainside, his instructions are explicit—keep the woman alive and safe from any possible harm. ?

A powerful telepath, Darcy Ashwood prefers to work alone in her lab because people are far too much trouble. Her personal passion? Creating perfumes. She knows everything there is to know about the olfactory sense and is particularly proud of the oil pheromone she created which inspires attraction in others. When she's sent to a remote cabin to refine her creation, she's also told to test it on the shifter assigned to be her guard.
