## **The Adventures of Mr. Tompkins and the Atom** Prof Igor Gamow

Mr. Tompkins, the inquisitive bank clerk created in 1937 by esteemed physicist George Gamow--developer of the Big Bang theory of the origin of the universe--returns in a new series of "graphic textbooks"! Previously available only as part of *The Adventures of Mr. Tompkins Volume One*, this Tompkins adventure finds him on the surface of an uranium atom, learning about it from the "Father of Nuclear Physics", Professor Ernest Rutherford! Whether you are a budding beginner or seasoned scientist, *The Adventures of Mr. Tompkins and the Atom* provides a feast of fantastic imagery and mind-expanding information! Igor Gamow, son of George Gamow, proudly brings his father's literary hero to the 21st century for a new audience. For thirty-seven years he was a professor of engineering at the University of Colorado in Boulder. He holds numerous patents in the field of bioengineering, including the Gamow Bag, a device that treats high altitude mountain sickness. Scorpio Steele, in addition to illustrating Mr. Tompkins' new adventures, has worked on *Spider-Man* and *Iron Man* projects for Marvel Comics, as well as art for the glam-rock band The New York Dolls.
